

**Camden Abu Dis Friendship Statement - for people who live or work in Camden:**

I / We support the move to build friendship links between people and organisations in Camden and in Abu Dis, a small town in Palestine on the outskirts of Jerusalem which is now divided by the Israeli wall.

I / We support the call for Camden council to establish formal twinning links with Abu Dis, for the following reasons:

- In order to express solidarity and common humanity with people in Abu Dis in their time of need;
- So both communities can learn more about each other, to help build friendship and understanding;
- So people in Camden can deepen their understanding of what is happening in this troubled part of the world;
- So we can support practical projects, for example medical and educational projects, within Palestine.
