

Message for Camden – Abu Dis Friendship Association
Twinning Conference

25 September 2005

I congratulate the people of Camden and Abu Dis who are forging good relations through their Friendship Association.

Londoners can benefit enormously from personal links with people of other cities round the world and I hope will be enriched by the experience of closer contacts with the people of the towns and cities of Palestine. I hope these friendships help create a better understanding of the issues of peace and justice in Palestine that are important for so many communities in London and for all those who believe that justice is the key to lasting peace in the world.

Ken Livingstone
Mayor of London
